SUBJECT: Request for Meeting with Analyst

1. Attached letter is from a PhD candidate who wants to discuss aspects of her dissertation with appropriate analysts.

2. Do you have any interest in entertaining her request either from a substantive or recruiting standpoint (or both)? If so, I will appreciate it if you will deal with her directly. If not, please let me know and I will put her off.

3. In either case, it will be less complicated if we can respond to her before 1 October. Thanks for your help.
